

## EVA ANDERSON OF PERRY CO. ARRESTED FOR SENDING THREATS AND POISON THROUGH MAILS

### Former Newark Man Oscar Sears of New Lexington Received Letter and a Poison Powder

#### PEOPLE WERE TERRORIZED FOR TWO YEARS

#### Insane Jealousy Said to Have Prompted Young Woman to Her Acts--Case Comes up in United States Court for Trial in Columbus--Story Almost Beyond Belief.

New Lexington, O., Dec. 8.—Probably one of the most sensational plots ever brought to light in Perry county was reached when United States Marshal McCallister placed under arrest Miss Eva Anderson, who was yesterday indicted, charged with using the mails to transmit obscene and threatening letters. That section of Perry county lying within a radius of 19 miles of New Lexington has been kept in terror by the receipt of threatening letters for two years.

Through her almost insane jealousy of Russell Watson, a former lover, Miss Anderson, 30, is said to have resorted to the use of the mails in making dire threats to kill by poisoning and burning prominent people, presumably to force the devotion of Watson.

A systematic chain of letters containing an alleged poison, obscene drawings, and threats to kill persons if they did not comply with the wishes of the writer, has been conducted. The matter has been presented by different persons to the authorities from time to time, but not until recently did suspicions center upon the Anderson woman. She was perhaps the most persistent in making complaints to the prosecuting attorney, producing anonymous letters mailed to her.

After investigation it would seem that the letters were penned by her own hand.

It seems that Watson came to the Lyonsdale mine nearly three years ago. He was a blacksmith. Among the acquaintances he formed was Miss Krighbaum. After a time he began calling upon Eva Anderson, and judging from the letters someone evidently had been making love. In a few months Watson discontinued his visits to the Anderson home and it is believed that this brought forth the letters. That the woman had grown desperate is evident on the face of each missive, as she inferred many criminal and slanderous offenses. Watson left eighteen months ago and returned to his home at New Concord.

Anonymous letters were received by James Campbell of New Concord. In the letter Campbell received were threats that if he failed to mail the enclosed missives at the New Concord postoffice "he would be burned in his bed."

Mr. Campbell also received a letter bearing the signature, "Granville P. Allison, noble grand of the Odd Fellows." Mr. Allison was much surprised to receive a letter from Campbell in the form of a reply, making inquiry as to what charges had been brought by the New Lexington lodge against Watson. Mr. Allison replied that he knew nothing whatever of such a charge.

Some months after this Allison received a package containing two other packages to be delivered to Newton Brown and E. B. Holcomb. The packages were found to contain poison. They were represented in a letter to each party signed, "Odd Fellow," to contain an excellent headache remedy.

Following this, O. F. Sears, proprietor of the New Central hotel, a former Adams Express agent at Newark, received a package containing a similar powder and a letter in which he was commanded to place the powder in Mr. Allison's coffee, while the latter was at the table at the hotel. The letter threatened that if the wish was not carried out Mr. Sears' life would be in danger and his hotel would be burned. All ends being put together it was summed up that some conspiracy was being formed by some unknown person to accomplish the removal of a member of the

Odd Fellows lodge. The persons receiving the powders reported the matter to the authorities, but no obtainable clue could be found and at that time the matter was dropped.

From time to time Mr. Allison received letters without a signature, in which threats were made that his stock would likely be poisoned and he himself be killed unless he obey certain commands.

The Anderson girl also produced letters and drawings in which her life was threatened if she did not drop Watson. She took the matter up with the authorities and accused William Taylor, a well-known young man, as being their author. The postal authorities investigated and found that the writing corresponded in a degree with Mr. Taylor's hand. However, a further investigation proved that Mr. Taylor was innocent.

Through the instigation of Miss Anderson, the matter was aired in the Odd Fellows' lodge, of which Mr. Taylor is a member, and he was taken "upon the carpet" for the offense.

Letters continued being received by numerous persons, all being a connecting link in a rather confusing manner. No one apparently gave the matter much thought except the Anderson woman, and she at various intervals took it up with the officials. Suspicions were aroused that Miss Anderson was herself guilty. The mails were closely observed, stamps were marked and the matter so closely watched that the postal authorities are positive of her guilt.

The United States grand jury returned an indictment against Eva Anderson and Deputy McCallister, accompanied by Postal Inspector Oldfield, went to the Anderson home two miles east of here and arrested the woman. She appeared to be greatly surprised and denied the charge. A search through her effects in the home produced a number of different forms of writing materials which corresponded identically with those used in the anonymous letters written and signed by Miss Anderson in her correspondence with Russell Watson, J. D. Watson, the father, and the Anderson woman, after Russell Watson returned to New Concord.

## FORMAL CHARGE OF MURDER MADE AGAINST CURTIS

#### WARRANT CHARGING CRIME IS SWORN TO BY BROTHER OF DONA GILMAN.

### PRISONER HALF WITTED MAN

Employers of Curtis Furnish Complete Alibi—News Boy Known as "Baby Dave."

(Bulletin.)

Dayton, O., Dec. 8.—The preliminary hearing of David Curtis, who confessed to the murder of Dona Gilman, and now stands charged with her killing and criminal assault upon her, will not be held today. It will probably not take place till Tuesday. Squire Terry, before whom the arraignment will be made, said it was the desire of all that Curtis be freed from the excitement attendant upon a crowded court room and no date has been set for the hearing.

Dayton, O., Dec. 8.—A formal charge of murder has been placed against David Curtis, 27, white, the self-confessed slayer of Dona Gilman, the pretty factory girl. Curtis is now in the county jail, where he awaits arraignment. The warrant charging Curtis with the crime was sworn to by Collin Gilman, brother of the murdered girl.

The confession of Curtis was telegraphed to the Advocate Friday. After reciting the horrible details and admitting that he had killed Dona Gilman, Curtis denied his guilt. He broke down and cried. Curtis earned a precarious living selling newspapers. He is half-witted and at times believes he is a great detective. Among the newsmen Curtis is known as "Baby Dave." He is the adopted son of James Curtis, a painter, who says the young man is irresponsible. Employers of Curtis furnish a complete alibi for him.

Dayton, Dec. 8.—Coroner Kline made the following signed statement today relative to the arrest in the Gilman murder:

"I am certainly most confident that the right man has been captured despite the fact that Curtis is said to be crazy and an imbecile and not responsible for his statement. Curtis is not crazy, in my opinion, but I do say that he is not as bright as he might be. He is possessed of deep cunning and this was displayed in taking his statements Friday morning. Curtis is a desperate fellow of the type that would be capable of such a crime. I am satisfied he is guilty."

Curtis told the detectives and myself things which happened on Groveland avenue on the night the Dona Gilman was murdered that were not known before and which have been proven to be true. He remembered very well seeing one of the residents of the street standing at the front window with her baby in her arms. This woman was located and admitted the truth of the statement, but said she didn't see Curtis waiting along the street. He also pointed out various houses where the

lights were burning on the porch or in the front window; and this statement was corroborated by detectives. The statement that Curtis is a harmless individual and made his confession simply for the purpose of getting notoriety is ridiculous. Such persons don't seek this kind of dangerous notoriety. We felt sure he is the right man."

## LID ON TIGHT HERE SUNDAY SAYS THE CHIEF

Chief Sheridan stated Saturday afternoon that enough extra men will be on duty tomorrow, Sunday, to see that the orders of the mayor are carried out to the letter. It is probable that 15 or 20 men will be on duty besides the regular patrolmen.

"Saloonists or other dealers whose places have been ordered closed will and that they have other people to fear besides the police," said the chief. "People who are interested in the success of the order will make every effort to secure evidence upon which to prosecute cases."

The Hayes cigar stand, the Spear news stand and the Stevens cigar and news stand, three places where Sunday papers are sold will all close. "We can't afford to take a chance," said one. "A man buying a paper will want a cigar or cigarette and will have a kick coming if we turn him down. Besides it wouldn't pay for us to keep open for the sale of papers alone."

A meeting of the druggists of the city was held Saturday afternoon in the Y. M. C. A. building when it was decided to close all the drug stores in the city Sunday. Newark will surely be under a heavy "lid" tomorrow.

## SOUTHERN WRECK IS LIKE THAT OF NOV. 29

Richmond, Va., Dec. 8.—Passenger train No. 31 on the Norfolk and Western railroad, en route from Norfolk to Richmond, was wrecked early this morning. The engine was badly injured and two others were seriously damaged. The accident was the result of a collision with a freight train. The wreckage was taken from the tracks this noon.

## EX-PRESIDENT IS ILL

Princeton, N. J., Dec. 8.—An acute attack of indigestion has kept Grover Cleveland confined to his home over a week. His condition is unimproved. Dr. Carnahan said today that ex-President Cleveland is not seriously ill, but that he suffers much pain. His sole ailment is indigestion.

#### ONE MAN KILLED BY BULLET FROM STRANGER'S PISTOL IN KANSAS.

Bookkeeper Turned in Alarm and This Summoned Crowd—Robber Holding Fort.

(Bulletin.)

South Bend, Kas., Dec. 8.—A stranger entered J. W. Brinkham's bank today and held up the officers at the point of a revolver. Before he could secure any valuables the bookkeeper turned on an electric burglar alarm. This summoned a crowd of citizens who pursued the robber down the street half a block where he took refuge in the second floor of the building. Claude Westfall, an express driver, was killed by a bullet from the robber's pistol. The robber is still holding the citizens at bay.

## HARDING'S BODY NOT RECOVERED AT CHARLOTTE

Word from the relatives of Mr. Edward Harding, the former Newark man who was drowned in Look No. 1 at Charlotte, Pa., on November 21st, is to the effect that the body of the unfortunate man has not yet been recovered. Mr. Harding was a brother-in-law to Mrs. Thomas Waters of East Main street, this city. Mrs. Harding is now stopping at Mrs. Waters' home.

The accident in which Mr. Harding lost his life is a result of the drowning of another man who was working with him at the time. Three of the members of the North Bridge company were engaged in work on a bridge at Charlotte and were in a skiff. In some manner the boat got beyond their control and went through the lock. One of the men escaped by jumping from the boat and swimming to the shore.

Mr. Harding was 28 years of age and was married to Miss Alice Ringhart of this city in 1905. He resided in this city for some time and previous to his coming to work for the American Bridge company was employed here as a B. and O. fireman. He only made two trips on the road before commencing work for the bridge concern.

## GAS SHUT OFF.

Cincinnati, Dec. 8.—A lessening of the gas pressure in the Utica gas field caused no little trouble to the city's industries yesterday. The gas was cut off from a number of factories.

Two large business blocks on High street, in the center of the Holyoke (Mass.) business district, were destroyed by fire, causing a loss of \$50,000.

## TWO HUNDRED LIVES LOST WHEN STEAMSHIP VARYAGEN WAS BLOWN UP BY A MINE

#### Chinese Junks Put off From Shore and Rescued Over 100 Passengers Found Clinging to Debris and Floating in Water--Vessel Sank in two Minutes After Striking Mine.

VICTORIA, B. C., Dec. 8.—Two hundred lives were lost in the destruction of the Russian steamship Varyagen, which was blown up by a floating mine recently off Cape Manchuria, according to passengers from the Orient who have just arrived here with accounts of the disaster. The mine is thought to have been laid since the Russo-Japanese war.

The Varyagen had three hundred and fifty passengers on board, most of whom were Russian traders and merchantmen. The steamer was proceeding in a southerly direction. When four miles off Cape Manchuria the forward watch saw the floating mine ahead. The Varyagen veered from her course, so that the bow just missed the explosive, but the steamer crashed into the mine. There was a fearful explosion and the Varyagen shivered from stem to stern. Passengers rushed to the decks in a panic. Life boats were manned but the vessel listed so that it was impossible to lower on one side of the ship.

The explosion had torn half of the bottom from the Varyagen and immediately she began to fill and settle. Many passengers unable to get into the crowded life boats threw themselves into the sea. In less than two minutes after the Varyagen had struck the mine.

Chinese junks put off from the shore and rescued over 100 passengers found clinging to debris and floating in the water.

Ithaca, N. Y., Dec. 8.—Cornell university is paying honor today to the seven victims whose lives were snuffed out in yesterday's fire which destroyed the Chi Psi fraternity house. All of the injured in the hospitals with the possible exception of Clarence J. Pope, of East Orange, N. J., will probably recover.

## WOMAN FALLS INTO A CISTERN AND DROWNS

While about to draw a bucket of water at her home, a mile and half southwest of New Albany, Friday, Mrs. John Sumption, aged 65, wife of a farmer, fell into the cistern and drowned.

The cistern contained about six feet of water. The aged woman was at home alone and her body was not discovered until her husband and son who were working in the fields, went home at noon. They found the door of the cistern open and the bucket standing near. The body had evidently been in the water more than an hour. The platform about the cistern door was slippery.

Mrs. Sumption had eight children. A daughter is a professional nurse in California and a son is in Virginia. The other children live in Franklin county.

## Domestic Tragedy.

Chicago, Dec. 8.—Dr. Benjamin Harris, a retired physician, who came to this city a year ago from Antigo, Wis., was shot and fatally wounded by A. C. Campbell, a lumber dealer of Anago. The shooting took place in the Stock Exchange building. Campbell made no effort to escape, and was arrested. The tragedy was the outcome of domestic troubles involving the families of both men.

## BISHOP SEYMOUR DEAD.

Sanford, Ill., Dec. 8.—Bishop Seymour died at 6:59 this morning.

In federal court at Anniston, Ala., last Monday, M. D. and W. R. Leach, president and cashier respectively of the Atlanta National bank of Atlanta, Ala., were indicted on a charge of misappropriating the bank's funds.

East Liverpool, Dec. 8.—A traction car of the East Liverpool company was derailed at the approach of the Jethro trestle today and plunged over a 25-foot embankment, completely wrecking the car. J. Wallace, 70, of Wells-ville, was killed and seven were seriously injured, two of whom, Ada Wilcox, 9, and Samuel Kerr, motorman, may die.

## IS SHAH DEAD?

Berlin, Dec. 8.—A report received here via Paris today says the Shah of Persia died early this morning. The report is not confirmed and is generally discredited in official circles. It is known, however, that the condition of the monarch has been precarious for several days, and it is not impossible that his death resulted and that the news was suppressed for political reasons in Persia.

## STEBEL'S DOWNFALL

Berlin, Dec. 8.—Oscar Stebel, German minister to Christiania has been asked to resign. Recent debates in the Reichstag on colonial affairs brought to light overwhelming revelations as to Stebel's incompetency while colonial secretary. These disclosures coupled with the "break" last summer when he failed to inform the Kaiser of the birth of a royal grandson when he boarded the royal yacht at Bogen resulted in Stebel's downfall.

## WILL SPEND FREELY

South Norfolk, Conn., Dec. 8.—Swearing he will never mix another drink for a customer as long as the \$200,000 he inherited from his aunt lasted, Harry Reed, bar-tender, has resigned. He expects the money to last two years. A squaw was stoned to death near Ft. Apache, Ariz., by Apache tribesmen. Indians charged her with being a witch.

## Will That Insurance Money Be Paid Back?

The story is circulated in Washington that President Roosevelt demanded sometime ago that Mr. Cortelyou, chairman of the Republican National Committee, and Mr. Bliss, the treasurer of the committee, arrange to repay from the funds on hand \$148,000 received from the life insurance companies for the campaign fund of 1904. These officials are reported to have obstinately refused to make restitution of the tainted money although there was over \$400,000 balance in the bank to the credit of the committee. If the President feels so strongly that this tainted money, which rightfully belongs to the widows and orphans of the policy holders, should be returned, it would seem that he is in a position to cause restitution to be made by demanding that Mr. Cortelyou return the contributions. In case of refusal he can call for the resignation of Mr. Cortelyou as postmaster-general, as chairman of the Republican National Committee, which would bring the matter to a climax. As nearly two years have elapsed without restitution being made of these large amounts of money, by the Republican politicians involved, it is difficult to believe that there is any real intention of making restitution of the tainted money.

There is another phase of this question, that even restitution will not suffice, for it will be remembered that President Roosevelt denied that either he or Mr. Cortelyou had knowledge of any such campaign contributions from corporations, when Judge Parker charged before the election of 1904, that such contributions had been received. It will therefore, require not only restitution of the tainted funds but also an apology to Judge Parker to clear up this noxious Republican mess. It would be pleasant to record that the Republican politicians, even while knowingly having received the tainted money, are willing to show fruit meet for repentance and in future when receiving similar contributions will insist that the appearance of evil shall be avoided.

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism, but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. These sand-like granular wastes, found in Rheumatic blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. ## MR. V. R. NOLD IS THE NEW DIRECTOR OF FESTIVAL CHORUS

In the planning of the work of the ensuing year, the trustees of the Newark Festival Chorus Association were compelled to make a considerable variation from the plans of previous years. Heretofore Mr. Judson has done all the conducting and rehearsal, but with the establishment of a new chorus in Putaskala, it was deemed wise to have an assistant choral director. And out of the available material Mr. V. R. Nold was selected to

## SOME STATISTICS OF STATE AFFAIRS

IMPORTANT FACTS IN FIGURES  
CONCERNING INSTITUTIONS  
OF OHIO.

Ohio Has Two Men in President's  
Cabinet—Increased Cost of  
Food Products.

Columbus, O., Dec. 8.—This is the time for the annual reports to the governor from state institutions. These reports have been coming for several weeks, and some of them contain very important facts for the public to know. No attempt will be made to recapitulate data from all of Ohio's 62 institutions, but the following summary should be of general interest.

Comparisons are odious—let Dogberry say it as he will—but when the reports were received it was found that some counties had more wards in the home for soldiers at Sandusky

JAMES RUDOLPH GARFIELD.

than had prisoners in the state penitentiary, which is a credit both to the counties and the Sandusky home. At the penitentiary when the year closed there were 1,627 prisoners. Of these Franklin county had the largest number in comparison, 127 men and two women, having committed one woman and 47 men during the year. Cuyahoga county, now the largest in the state in population, has 178 convicts in the penitentiary, Hamilton county 125 and Lucas 87. Henry, Holmes, Morrow and Vinton counties had no prisoners at the penitentiary.

At the home for soldiers were 1,543 veterans at the close of the year, almost as many as at the national home in Dayton. There were no soldiers at the Sandusky home from Brown, Holmes, Meigs, Pike and Vinton counties; Cuyahoga had 190 Franklin 168, Hamilton 113, Lucas 97.

As one of the nine national homes for soldiers is located in Ohio, the following extract from the annual report of Colonel John L. Chamberlain, inspector general of federal homes for soldiers, may be of some interest to others besides the veterans: In these nine homes the total population June 20, 1906, was 18,661, a gain of 591 over last year. The average age is 65.64. The per capita cost \$158.62. Beer hall receipts for the year were \$291,690, profits \$165,453. Chamberlain says: "The beer hall is a most valuable agent in determining the comfort, contentment, health and general welfare of members." Beer hall profits are used to provide amusements for veterans, but the beer halls are objected to by those who are opposed to the army canteen.

Of the insane hospitals in Ohio the largest is at Columbus, which had a total population during the year of 2,037 patients, the highest population at one time was 874 men and 756 women at the close of the year. During the year 256 men were received, 57 men were discharged as recovered, 19 men discharged as improved; 24 men discharged without improvement, and 77 men died; 196 women were received, 69 women discharged as cured, 14 women discharged as improved, 15 women discharged not improved, and 40 women died. The total expenses for the year were \$225,564, per capita cost \$150.12. On the subject of competitive bidding for supplies, the trustees say in their report: "Competitive bidding has been followed for some time. We feel justified in saying that this means of purchasing the supplies of the institution has been greatly to the advantage of its management, and the prices paid for articles which were submitted for competitive bidding have shown that it is the correct method to purchase supplies for the institution."

At the Toledo insane hospital which is next largest, the daily average attendance of patients was 1,737. The total current expenses were \$265,842.92, making the per capita cost \$136.94. In addition there were extraordinary expenses amounting to \$10,962.13.

At the state hospital in Gallop Hills for epileptics the average daily at-

crease of 214 over last year. The total cost of maintenance was \$207,096.13, making the per capita cost \$167.83. This is an increase over last year, ascribed by the trustees to increased prices of things purchased. The trustees say: "We desire to commend in the highest terms the system of buying staple articles of merchandise by the competitive bid system."

Competitive bidding also finds favor with the board of the state institution for deaf and dumb, which had a daily average attendance of 488, total expenditures \$129,809.15, per capita cost \$282.81. On the subject of competitive bidding the trustees say: "We think it has greatly reduced the expenses of the institution, though the increase in the cost of living has prevented it from reducing the per capita cost." At this institution 61 pupils were admitted during the year. At the time of the report there were 273 male pupils and 212 female pupils, Franklin county having 55, Cuyahoga 43, Hamilton 23, Clermont, Defiance, Fairfield, Mercer, Pickaway and Pike counties none.

Very interesting figures appear in the report of the industrial school at Lancaster for boys. At the close of the year there were 915 boys, although the average daily population was 943, due to commitments from juvenile courts. During the year 612 were received, 195 of them having American parentage, 79 colored and 327 of foreign parentage. The foreign increase is attributed to immigration to the cities. During the year 529 were discharged. The report was unique in appearance, having been bound at the bindery connected with the school, addressed on the first page to the governor as "His Excellency," a portrait of Governor Harris appearing on the page. The total cost for the year was \$181,161, the per capita cost \$167.01, an increase, attributed to increased cost of food products.

There is a serious state of affairs at the industrial home at Delaware for girls, which had 411 girls enrolled at the close of the year. The law raising from 18 to 21 years the age at which girls must be released from home resulted in an increase of one-third in the population of the institution. It has been in effect three years. At the time it was enacted it was understood that the intention of the law was to increase the age of those under parole. The theory was that most of those under 18 would be paroled, and not remain in the institution, though practically under its control. There are now 103 on parole. The gain of those released on honor is slight.

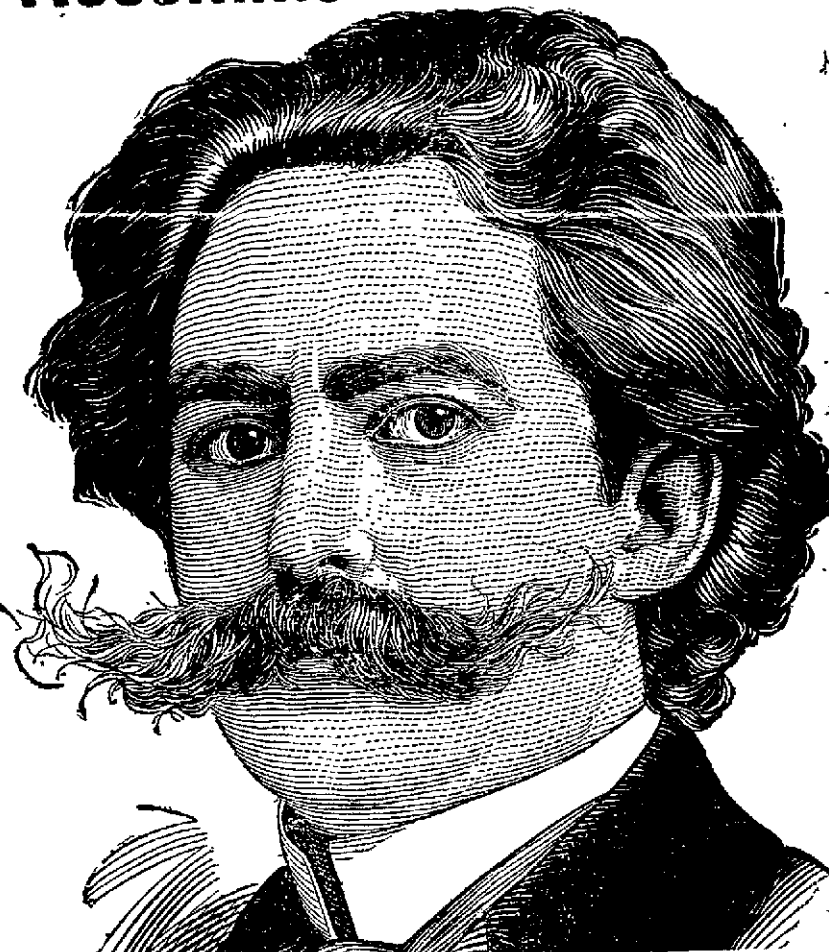

The result of this increase is that the girls are sleeping in halls that have been converted into temporary dormitories. In many cases rooms that were intended for one inmate are accommodating more. Before one of the dormitories burned there were accommodations for 200 girls. The building being erected to replace it will provide for 60. No relief from the congestion is in sight for at least two years. The legislature will be asked to take cognizance of the condition at its next session. Two additional dormitories will be urged. Franklin county has 34 girls at the home, Lucas 25, Cuyahoga 24, Hamilton 23. Hamilton and Cuyahoga are low because local institutions care for many who would otherwise go to Delaware. The total cost of the institution for the year was \$56,200, the per capita cost \$149.87.

At the state institution for the blind there are 313 pupils; average daily attendance 267; total cost \$93,328 per capita cost \$249.55. In connection with the education of the blind, reports to W. H. Shirer, secretary of the board of state charities, show 2,967 blind in the state who received the \$100 annual pension recently declared unconstitutional. Secretary Shirer says he does not believe a constitutional pension measure of this character can be passed. He thinks aid should be given through state institutions. Experience has proved that the blind can be made self-supporting. That would be the aim of institution work. During the year ended Aug. 31, 814 pensioners were added to the list and 153 were removed, mostly by death. They come from every county. Carroll is low with 2, and Hamilton high with 239.

Another statistical statement of interest all over the state appeared in the December crop report of the state board of agriculture. It showed that the corn crop for 1906 established a new record so far as yield per acre is concerned. The area planted was 2,892,509 acres. The total yield was 125,849,065 bushels, or 43½ bushels per acre. As corn is selling at about 45 cents a bushel, it means that the average acre of Ohio land planted to corn this year produced a crop worth \$19.57 per acre, or a total of \$56,630,000. Some idea of what the corn crop figures mean may be gained from the fact that it exceeds that of last year by 16,507,826 bushels.

Ohio now has two men in the president's cabinet. The new Ohio cabinet official is James R. Garfield, son of one of the presidential martyrs. Mr. Garfield represented the Painesville district two terms in the state senate at the sessions held in 1896 and 1898. In 1860 and 1861 his father was a state senator, representing Portage and Summit counties. As secretary of interior Mr. Garfield will be the second son of a former president to hold a cabinet position, the other being Robert T. Lincoln, who was secretary of

## CUBAN MINISTER TO THE U. S. Recommends Pe-ru-na.

Senor Quesada, Cuban Minister to the United States.

Senor Quesada, Cuban Minister to the United States, is an orator born. In an article in The Outlook for July, 1899, by George Kennan, who heard Quesada speak at the Esteban Theater, Matanzas, Cuba, he said: "I have seen many audiences under the spell of eloquent speech and in the grip of strong emotional excitement, but I have rarely witnessed such a scene as at the close of Quesada's eulogy upon the dead patriot, Marti." In a letter to The Peruna Drug Mfg. Co., written from Washington, D. C., Senor Quesada says:

"Peruna I can recommend as a very good medicine. It is an excellent strengthening tonic, and it is also an efficacious cure for the almost universal complaint of catarrh."—Gonzalo De Quesada.

Mr. Will A. Hoffman, Hagerstown, Ill., writes:

"I gladly give my testimonial with the thousands of others who have been cured by the use of Peruna."

"I had catarrh of the head and throat. I took cold easily and was dizzy-headed."

"I was all rundown and hardly able to work at all when I began using Peruna."

"But, now, after using it about six months I am well and strong."

There is no remedy in the world which has proven so popular for catarrh as Peruna. It has been used for more than thirty years and cured thousands of cases as proven by our testimonials.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case and he will be pleased to give you his valuable advice gratis.

## WO K THAT TELLS.

Plenty of It Has Been Done Right Here in Newark.

Cures that last are cures that tell. To thoroughly know the virtues of a medicine you must investigate the cures and see if they prove permanent. Doan's Kidney Pills stand this test, and plenty of proof exists right here in Newark. People who testified years ago to relief from backache, kidney and urinary disorders, now declare that relief was permanent and the cure perfect. How can any Newark sufferer longer doubt the evidence?

E. Frank Edwards, plasterer, of 152 Ash street, Newark, O., says: "I had backache and had it bad. For several years I was suffering from sharp, shooting pains in the region of the kidneys and a dull aching and weakness in the back which was becoming very serious. I tried remedy after remedy without finding relief, and I nearly lost hope when I began using Doan's Kidney Pills, obtained at Crayton's Drug Store. It was a gratifying surprise to find after a few doses of this remedy the pain seemed somewhat abated, and I continued the treatment for some little time, using several boxes. I was thoroughly cured. I gave a testimonial at that time to others. It is now eight years since I made that statement, and I am glad to be able to say that the cure was permanent."

## CHURCH OF WASHINGTON TO BE RESTORED.

THE OLD FALLS CHURCH

New York, Dec. 8.—In a regular meeting of the trustees of the American Scenic and Historic Preservation society, a resolution was passed endorsing the efforts of the Rev. G. S. Somerville of Falls church, Va., who is now in this city to obtain means to restore the historic Falls church, of which he is rector.

This landmark, with which are intimately associated memories of Augustine Washington, George Washington, George Mason and other distinguished Americans, is situated near Mount Vernon.

Falls church was built about 1734.

George Washington and George Mason were among its vestrymen. Augustine

nated to the vestry its first rector, in 1736.

## ZANESVILLE IS MUCH WORRIED

OVER QUESTION OF GETTING A FRANCHISE IN THE O. P. LEAGUE FOR 1907.

Sports in Mogul Town as Well as East Liverpool Want Mansfield Franchise.

Zanesville sports are much worried over their prospects for a baseball franchise for the season of 1907. Since Messrs. Drumm and Anderson sold out down there, the lovers of baseball in Mud City have been after a franchise hot foot.

There is only one objection to Zanesville as a baseball town, and that is that the sports there can form the biggest anvil chorus in the land when their team is on the toboggan. That is what lost their team for them last season and the same thing will happen again if the knocking takes the place of boosting.

Of course most any town has its knockers when the team loses but Zanesville is an exception. Then again Zanesville can support a team well when they win. Their crowds are enthusiastic as well as large, frequently crowds of 2,300 people attending a Sunday game there. Newark would like to see Zanesville in the league as they always draw well in Newark because of the intense and bitter rivalry between the teams of the two cities.

An effort is now being made to secure the Mansfield franchise, and the Zanesville bugs fear that they will keep it in Mansfield as a new company is being organized. However, the Mud City crowd will send representatives to the annual meeting and one mighty effort will be made to land a franchise.

East Liverpool wants an O-P league franchise as bad as Zanesville and they are hot after the Mansfield prize meantime, but little is being said about the Marion franchise. There is

every indication that Marion will be the poorest paying town in the league, figuring on the way they turned out to the games last season. Of course the baseball people promise a ball park in the city for next season but whether they can arouse enough enthusiasm there to support a team remains to be seen.

The owners of the club have not been in the baseball business long enough to get their fill of minor league baseball but it is thought that a half season will do it.

## COSHOCTON AT LAST DEFEATED

NEWARK WAS ABLE TO WIN THE FOURTH GAME WITH THIS FAST TEAM.

Barker and Heath were the shining lights in last night's game. Five Hundred Present.

Instead of the third time being the charm, in the case of the Newark-Coshocton polo games the usual custom slipped a cog and it went to the fourth time. Newark won her first game from Coshocton at the Palace ring Friday night, this being the fourth game with the Coshocton people. However, while in the "defeating" business, Newark did it up brown and shut out their opponents by a score of 7 to 0.

Friday night's game was one of the best yet put up by the Newark lads. There was team work at every stage of the game and Barker and Heath were exceptionally strong. Both goal tenders were in the game with a vengeance last night and each had a large number of stops to their credit. There were five hundred people at the game.

After the game, the members of both teams and the officials were invited to Kuster's restaurant where an excellent supper was served.

Columbus will come to Newark on Monday night for a game. This will be a fast game as Columbus is just starting out and are fresh from their two or three weeks' training. Five games are scheduled for next week.

Newark—Heath, first rush; Barker, second rush; Smart, center; Lake, half back; Sweetzer, goal.

Coshocton—Church, first rush; Boyd, second rush; Pope, center; Deeds, half back; Ried, goal.

Coshocton . . . . . 0 0 0-0  
Newark . . . . . 7 3 3-7

Summary—Rushes, Church 3, Heath 9, Goals, Heath 3, Barker 4, Stops, Ried 31, Sweetzer 26. In and out, Barker 1. Time of periods 10 minutes. Timer and Scorer, Roesser. Referee, Daken.

## ABE ATTELL WINS

Featherweight Champion of World Defeats Jimmie Walsh of Boston.

Los Angeles, Cal., Dec. 8.—Abe Attell of San Francisco, featherweight champion of the world, won a decisive battle from Jimmie Walsh of Boston, knocking him out in the eighth round with a straight left to the solar plexus. Walsh regained consciousness a short time after the count of ten and was evidently not badly injured. Once before in the eighth round Attell had a terrific right on Walsh's jaw and followed it up with a rush and a rain of blows, and had Walsh going badly, when some one from Walsh's corner threw a towel into the center of the ring and the fight was stopped. Walsh protested wildly and struggled to get at Attell again. After a moment's delay and wrangling over the matter the fight was resumed.

## DR. ECKSTORM MAY COACH MEDICS

He Can Have Position if He Wants It—Stanley Brown Elected Captain.

As yet there has been no action taken by the athletic board of O. M. U. relative to securing a coach for the season of 1907. However, there seems to be no doubt but that Dr. Eckstrom can have the position another year if he wants it. His work with the Tigers for the past two years has certainly been as satisfactory as could be asked for and should warrant his being engaged for another season.

Stanley Brown was honored by his teammates Friday afternoon by their election of him as captain of the O. M. U. team for 1907.

## ATHLETICS AT OLD DENISON

ELECTION OF OFFICERS HELD IN GRANVILLE ON SATURDAY MORNING.

Managers of Several Denison Teams Submit Reports and Coach Gives a Talk.

Granville, O., Dec. 8.—The meeting of the Athletic Association of Denison this morning was called to order by President Cornell and reports from the managers were received.

Football Manager Beatty reported that the net proceeds of the season only amounted to about \$12.

Manager Campbell of the basketball team reported the outlook as most promising. He said that fully half of the games would be played on the home floor.

Baseball Manager Forsythe said that the outlook is bright and the indications are that Denison will have a team to be proud of next season.

Tranck Manager Huffman made his report of the recent cross country run. He said it was one of the most successful runs in the history of the college, but was afraid that the team would be somewhat weakened by the eligibility rule, which allows only upper class men to be members of the track team.

Coach Rohrer gave a talk. He said that he hoped the friendly relations between O. S. U. and Denison would be resumed and that Denison could have another opportunity of going against the Ohio State boys.

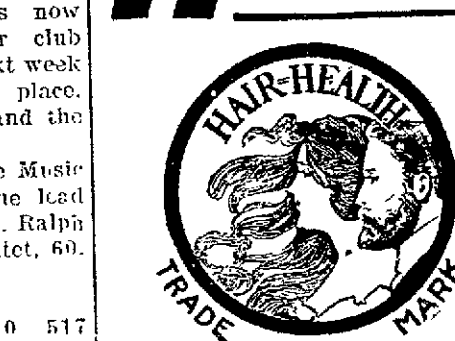

The election of officers resulted: President, Millard Lowery, '08. Vice Pres., W. B. Storm, '09. Secretary, R. D. Hart, '10.

Two members from the student body in board of control were elected. They are Walter Livingston, '09 and "Ringer" Wilkin, '09.

The academy member of the executive committee is Wilfred Coo.

At a recent church fair in England one of the means used for increasing the receipts was a guessing contest as to the weight of the pastor.

## Eating, versus Feeding

The real need for food is to feed the body. But eating today is practiced almost wholly to please the palate—nourishing the body is scarcely given a thought. As a result the system is overloaded with uric acid, causing *Dyspepsia*, *Indigestion* and a long list of Stomach Troubles and other diseases. The cure is *Common Sense*.

### HOW URIC ACID CAUSES DYSPEPSIA

Improper food causes Auto Toxemia, self poisoning by uric acid.

The effect is to overload the blood with poisonous matter—uric acid. Then this is what happens.

The blood deposits little sand-like grains of uric acid in the walls of the stomach, even in the delicate lining of the stomach itself.

Then comes irritation and congestion that interferes with the flow of digestive juices causing sour stomach, indigestion, dyspepsia, ulcer of the stomach and other diseases.

Plain common sense in eating with proper aid in getting rid of the uric acid, is the only cure.

### LIFE PLANT DISSOLVES URIC ACID

If you swallow a deadly poison the physicians first act is to give you an emetic—cause you to vomit out the poison.

If you have a poison—uric acid—lodged in the walls of your stomach, you cannot vomit it out, but you can and must get rid of the poison. Isn't that common sense?

**LIFE PLANT** is the preparation that gets rid of the poison—dissolves it out of the stomach and by proper eating you will be perfectly and certainly cured.

**LIFE PLANT** is not a patent medicine. It contains no narcotics, no poisons.

### SYMPTOMS OF EXCESS OF URIC ACID

Belching, feeling of fullness after eating, sour stomach, coated tongue, poor digestion, constipation, headache, sleeplessness, dyspepsia, indigestion and all stomach troubles definitely prove poison by uric acid.

**R** If you have any of the above symptoms or already suffer from stomach trouble, why not use your own good judgment. Take **LIFE PLANT**—a common sense remedy. Cure yourself by driving out the cause of disease.

### Knights of Pythias.

The two lodges of Knights of Pythias in Newark will shortly be given an opportunity to vote on a proposition for the establishment of a home for indigent members and their wives.

The question has been nagitated for years by the order, but as the state children's home at Springfield, was in the way and had to be first paid for, the matter dragged along until the present time when it is beginning to take form.

The Springfield home for orphans has been paid for by a per capita

tax of \$1 per year, and as last year closed the matter the tax has fallen to 70c.

It is estimated that the per capita tax required for the support of members who might be so unfortunate as to be left without a home in their declining years would not be any greater than that assessed for the support of the orphan children and its benefit to the order would be great.

There will be a vote taken in each lodge of the state. The results will be forwarded to the grand keeper of records and seals at Toledo and will be brought up for consideration at the next convention of the order to be held at Zanesville in June.

If the home should be built its probable location, according to local members of the order, will be at Springfield where the home for orphan children is now located.

Roland Lodge, No. 305, Knights of Pythias, will confer the esquire rank on Wednesday night.

### Knights of Columbus.

A number of the local members of the Knights of Columbus are expected to attend an initiation of a number of candidates in the Mt. Vernon branch of the order.

### Modern Woodman.

Cedar Camp, No. 4727, Modern Woodman of America, met in regular session on Wednesday night with all officers and 78 members present. Five applications for membership were received and acted upon and elected. The Escort prepared to the ante-room an dround therein Clyde Humes, Amos Beckhoff, Clarence L. Peoples and Claude Garrison, who were adopted as members of the camp. The committee on hall reported that they had leased the A. O. U. W. hall and that Cedar Camp beginning after January 1, 1907, would meet there hereafter. The meeting night was also changed from Wednesday night of each week to Monday night of each week. This being election night the following of-

the reservation of Ohio were doing good work and were capturing many palefaced. After the Great Sachem's talk he gave the unwritten work of the Red Men. This being the annual election night for chiefs for the ensuing term the following chiefs were elected:

Proprietor—H. J. Johns.  
Sachem—L. W. Swartz.  
Sen. Sagamore—H. Heckman.  
Jun. Sagamore—W. Wulphoep.

Keeper of Wampum—Henry Parker.  
Trustee—Conrad Redman.  
Representative—J. P. Baker.  
Alternate—S. B. Caffee.  
Captain of Team—E. C. Richardson.

On the first meeting night of January the above chiefs will be raised up to their respective stumps. The election of great chiefs was also held on this night, and a great many of the past sachems were out and voted for their favorite great chief. On the next meeting night there will be work in the first and third degree and a good turn out of the chiefs and members is desired. The first warriors in scouting the forest found one brother for the warriors degree and two brothers for the chiefs degree, which was conferred upon them in due form.

order of business was gone through with. There were about 75 members present. It being election night, the following officers were elected:

Counsellor—S. W. Warner.  
V. Counsellor—Carrie Conway.  
P. Counsellor—M. Conley.

## Don't be Ruled by Rheumatism

"Give it a finger and it will take the whole body" can be truthfully said of Rheumatism. Once this insidious disease takes possession of a person undurable torture and crippled limbs mark its ravages. No one need suffer from any form of Rheumatism when **Athlophoros** can be procured. As a private prescription of one of the most eminent physicians in the world, **Athlophoros** became famous for its unfailing efficacy in Rheumatic cases. Many thousands of former Rheumatic sufferers have been restored to health and strength because they used **Athlophoros**. The poisonous Uric Acid that causes the pain and swelling is driven from the blood by **Athlophoros** which aids nature in rebuilding the weakened constitution. There is no case of Rheumatism of any kind that cannot be relieved by the first bottle of **Athlophoros**. A few bottles have effected a permanent cure even in some of the most obstinate cases. Every druggist in this town sells and recommends it. Ask your druggist for

## APPLICATION MADE TO MAYOR McCLEERY

For a Permit to Carry an "Open"  
Umbrella, "Everything Else  
Being "Closed".

A Saturday afternoon mail delivery  
brought to Mayor McCleery the follow-  
ing self-explanatory letter from a  
practical joker, a guest at the War-  
den who adds to his signature the  
phrase, "only a traveling salesman":  
Hon. S. H. McCleery,

Mayor of the City of Newark:  
Honored Sir:—I respectfully ask per-  
mission to carry an open umbrella  
while in your city on Sunday as ev-  
erything else is closed and my cloth-  
ing needs protection from the ele-  
ments. As I don't want to do any-  
thing contrary to the law, I ask the  
above. If agreeable kindly send my  
permit care Warden Hotel. Thanking  
you in advance, I beg to remain,  
Yours very respectfully,

S. NEWBURGER, of Chicago.  
A reporter found the commercial  
man and asked him what he would do  
if the permit requested were granted  
by the mayor. His reply was: "Why,  
I'll carry it open of course, rain, snow  
or shine."

After receiving the letter from the  
joking drummer who requested per-  
mission to carry an open umbrella on  
Sunday, Mayor McCleery dictated the  
following letter to his stenographer,  
which, bearing the official seal,  
means that the drummer must "stand  
pat" and carry the umbrella.

Newark, O., Dec. 8, 1906.

Mr. S. Newburger, care Hotel War-  
den, City:  
Dear Sir—You are hereby granted a  
permit to carry an open umbrella  
on the streets tomorrow, Sunday, De-  
cember 9th. The "lid" order does  
not apply to umbrellas.

Yours very truly,  
Samuel H. McCleery,  
Mayor City of Newark.

## PROSPECT GOOD FOR NEW PLANT

BOARD OF TRADE COMMITTEE IS  
WELL SATISFIED WITH TRIP  
TO MARYLAND.

Negotiations Progressing Between  
Mr. Costello of Pittsburgh and  
Newark Board of Trade.

Attorney E. M. Black, president of  
the board of trade, is in receipt of  
letters from T. J. Costello, of Pitts-  
burg, with reference to the proposi-  
tion submitted by the board in its re-  
cent consideration of locating a mill  
for re-rolling steel rails in this city.

Mr. Costello, representing Pittsburgh  
capitalists, has been in communication  
with the officers of the board of trade  
for some time and his latest letter re-  
quested slight modifications in the  
proposal of the board so that it might  
be more definitely understood by the  
Pittsburgers who are now giving the  
matter consideration and from whom  
a reply is expected some time during  
the coming week.

The industry in question will, if lo-  
cated here, employ about 160 men.  
Steel rails and cement bars, for re-  
inforcing all kinds of cement work,  
will be manufactured.

A committee from the board of trade  
consisting of Messrs. William C. Wells  
and Wesley Montgomery, recently re-  
turned from Cumberland, Md., where  
they inspected a plant similar to the  
one proposed for Newark, and for  
which, with two others, Mr. Costello  
prepared the plans. They reported  
entire satisfaction with the industry  
and stated that the output of the Cum-  
berland concern had exceeded a value  
of over \$1,000,000 in 16 months.

Beware of Ointments for Catarrh that

Contain Mercury.  
as mercury will surely destroy the sense  
of smell and completely derange the  
whole system when entering it through  
the mucous surfaces. Such articles  
should never be used except on prescrip-  
tions from reputable physicians, as the  
damage they will do is ten fold to the  
good you can possibly derive from them.  
F. J. Cheney & Co., Toledo, O., contains  
no mercury, and is taken internally, act-  
ing directly upon the blood and mucous  
surfaces of the system. In buying Hall's

INDICTMENTS  
RETURNEDBy the Grand Jury Investigating the  
Utah Coal Land Frauds.

## A PARTIAL REPORT IS MADE

Big Corporations and Representatives  
of the Gould and Harriman Interests  
Are Charged With Having Discrimi-  
nated Against Certain Shippers.  
Coal Dealer Driven Out of Business.

Salt Lake City, Dec. 8.—A partial report was made by the federal grand jury that is investigating coal land frauds in Utah and charges that railroad corporations have discriminated against certain shippers of this and other states. Indictments were returned against the Union Pacific Railroad company, the Oregon Short Line Railroad company, the Utah Fuel company and several of the highest officers representing the Harriman and Gould corporations in state of Utah. The indictments against the Harriman company embrace the Union Pacific, Oregon Short Line, the Union Pacific Coal company, Everett Buckingham, general superintendent of the Oregon Short Line, and a man named Moore. The indictment charges violation of the interstate commerce law, alleging discrimination against D. J. Sharp, a coal dealer in Salt Lake City, who was forced out of business after he had cut prices below the prices charged by other dealers in the coal. The indictment against the representatives of the Gould interests embraced the Utah Fuel company, H. G. Williams, general manager of this company; Robert Forester, the company's geologist; W. R. Foster, secretary to Robert Forester; Alexander M. Cowie, general manager of the company's Wasatch store at Sunnyside, Utah; Elroy N. Clark, the Utah Fuel company's attorney at Denver, and George A. Moore, the company's agent at Denver. They are charged with defrauding and attempting to defraud the United States government, the charges being based on the methods pursued in acquiring title to coal lands in Utah.

The two men indicted for perjury are Theodore Schulte, employed by an insurance firm, and Thomas A. Moore, abstractor in the county recorder's office. Both men were arrested and released on \$2,500 bail. The charge of perjury, it is believed, grows out of the belief of the grand jury that the men acted as land locators for the Utah Fuel company, and refused to admit the fact when examined as witnesses.

Octogenarians' Fate.  
Muncie, Ind., Dec. 8.—Jesse Page and wife were struck and instantly killed by a passenger train while driving across the Big Four tracks at Farmland. Both were past 80 years of age.

## PRODUCES PAPERS

Senator Bailey Demanded Attorney  
General to Produce Documentary  
Evidence Against Him.

Austin, Tex., Dec. 8.—In answer to a statement by United States Senator Joseph W. Bailey, in which Senator Bailey demanded of Attorney General Davidson all documentary evidence in his possession which tended to prove that he (Bailey) was paid by the Standard or Waters-Pierce oil companies or by H. Clay Pierce of the Waters-Pierce Oil company for services rendered, Attorney General Davidson made public a statement which contains all vouchers, notes, letters and drafts in his possession, and upon which he based his charges against Senator Bailey.

TWELVE DROWNED  
IN MEXICAN MINE

Laredo, Tex., Dec. 8.—News has just reached this city from Monterey, Mexico, of a mine accident which occurred at the Avino mines, and which resulted in the death of 12 Mexican miners at work in the shaft. Had it not been that the entire force of men employed in the mine had not commenced their labors for the day, a number of others might have been killed. According to the best available information the accident was due to the carelessness of some one in letting a big flow of water into the lower level, where the men were drowned.

## Struck Gang of Workmen.

New York, Dec. 8.—A theater train on the New York Central railroad plowed through a gang of workmen on the Harlem river bridge, instantly killing one of the men and fatally injuring another. The workmen were installing a signal apparatus on the third rail system. The man killed was John Kaiser and the man fatally hurt was John Baumgarten.

## GET 5 YEARS

New Lexington, Dec. 8.—Ira McCarty and Ed. Harrington, tried and convicted here for robbing the Crooksville postoffice last summer, were sentenced to five years in the penitentiary by Judge John T. Pyle.

Frank Barker, charged with the same offense, has not been tried, but will likely be given a trial after the San Toy murder cases are completed.

## Men's Fate Unknown.

Bakersfield, Cal., Dec. 8.—The fate of six men employed by the Edison Electric company of Los Angeles, who are imprisoned in a tunnel 16 miles from here, is unknown. The men were caught by a cave-in.

SIMPLIFIED SPELLING  
GIVEN A HARD JOLT

Washington, Dec. 8.—Simplified spelling received a hard blow in the legislative, executive and judicial appropriation bill for 1908, reported to the house by the committee on appropriations, which says: "Hereafter in printing documents authorized by law or ordered by congress, or either branch thereof, the government printing office shall follow the rules of orthography established by Webster's or other generally accepted dictionaries of the English language." The bill carries an appropriation of \$31,215,525. Public Printer Stillings' salary is increased from \$4,500 to \$6,000.

## Freight Trains Wrecked.

St. Joseph, Mo., Dec. 8.—Edward Klecan engineer, was killed; William A. McGinnis, fireman, and H. O. Widener, brakeman, were seriously injured in a collision between Rock Island and Burlington freight trains.

## TRADE REVIEW.

Record-Breaking Run Noted For  
Christmas Specialties.

New York, Dec. 8.—R. G. Dun & Company's weekly review of trade says: Low temperature stimulated trade in seasonable staples, but interest is most conspicuous in holiday goods. Expectations of a record breaking run for Christmas specialties are being fully realized. Jobbing and wholesale houses are doing well for the season, but reports of mercantile collections show much irregularity. Improvements in the promptness of payments is expected when the crops have been more fully marketed, and greater ease appears in money rates, which are far above normal, despite the fact that the total amount in circulation exceeds all records. Very little idle machinery is noticed in the factories and mills, except where the supply of labor and raw materials are insufficient, and the vigorous demand for all commodities is indicated by the highest level of prices in recent years. The closing month of the year in the iron and steel industry promises to fully maintain the phenomenal rate of progress that has been experienced during the autumn.

## ASPHYXIATION

Given as Cause of Death in Wash-  
ington of John Cropper, Prominent  
Lawyer and Clubman.

Washington, Dec. 8.—Accidental asphyxiation is given as the cause of the death of his home in this city of John Cropper, a retired lawyer, who was prominent in club and social life in the national capital. His wife, who is in New York, was a daughter of the late Robert McLane, at one time minister to France. Mr. Cropper was 56 years of age. He was a member of the Society of the Cincinnati and of the Society of the War of 1812.

St. Petersburg, Dec. 8.—Count Witte, the former premier of Russia, who recently returned from abroad, was received in audience by the emperor. The count's reception has been delayed by his ill health.

## FOREIGNERS BARRED

American Society of Engineers Con-  
cludes Annual Meeting With  
Trip to Sandy Hook.

New York, Dec. 8.—The American Society of Mechanical Engineers concluded its annual meeting with a trip to Sandy Hook, where as guests of General William Crozier, chief of ordnance, they inspected the fortifications that guard the outer entrance to New York harbor. The delegates inspected the big coast defense guns, which they also saw at work, and visited the proving grounds, where both large and small guns were put in action. Four members of the party, because they were foreigners, were prohibited by the regulations from entering the zone of fortifications.

THE TSARITSA AND THE GRAND DUKE ALEXIS,  
HEIR TO RUSSIAN THRONE.A THOUSAND EVES  
TO HAVE NO ADAM  
ON TEXAS RANCH

Ft. Worth, Texas, Dec. 8.—An Adamless Eden in Texas is the dream of Mary F. Hayden, the Chicago novelist, who is arranging to establish a colony of 1,000 women in Refugio county, Texas. She has acquired title to 5,000 acres and is at work on the plans for her colony.

Women colonists may have husbands if that condition cannot be avoided, but the males must be a mere notch on a stick so far as the affairs of the colony are concerned. The founder will endeavor to procure from the Texas legislature permission for women to exercise the right of suffrage in her colony, and all homes must be in the name of the wife. Everything that is usually undertaken on Texas farms will be undertaken, truck farming, fruit raising, beekeeping, dairying, poultry raising and other kindred farm and ranch pursuits.

Miss Hayden was an intimate friend of the late Frances E. Willard and was associated with her for a number of years in temperance work.

## NEGRO'S WORK.

Kills Two and Wounds Four Before  
He Is Placed Under Arrest.

Greenville, Miss., Dec. 8.—As the result of a fight which occurred here two persons are dead, two seriously injured and two slightly hurt. Felix Holman, a negro hailing from Arkansas, shot and killed Celina Holman, a negro, in Mrs. Pratt's boarding house for negroes. Officer H. A. Abercrombie, with B. Coffey, William Vaught and Enoch Thompson, entered the boarding house to arrest Holman. The negro had two pistols and fired upon the arresting party. The first shot passed through Thompson's breast, killing him. Another shot struck Acting Officer Coffey in the body and he is in a precarious condition. Officer Abercrombie, the oldest policeman on the local force, had his right thigh shattered by a bullet from the negro's revolver. He is seriously injured. N. Wainer, a business man, was struck in the leg by a stray bullet, but he is only slightly hurt. After emptying his pistols at the porter the negro fled from the boarding house and was fired upon by officers and citizens. He was finally driven into a warehouse, and after a threat was made to burn him out he surrendered to Sheriff Crouch and was lodged in jail. Holman was shot in the arm.

## Higgins' Observation.

New York, Dec. 8.—Governor Higgins said here that the whole Republican state ticket might easily have been elected in the recent election, but that a party can not succeed which makes a mistake of conducting a campaign on personalities rather than principles.

SQUIRE M. R. SCOTT  
HAS RESIGNED AS  
PROBATION OFFICER

Probation Officer M. R. Scott has placed the following resignation of his position in the hands of Probate Judge Brister:

To Judge E. M. P. Brister.  
Dear Sir:—Most reluctantly I herewith tender my resignation as one of the probation officers of the Licking County Juvenile court, to take effect at the close of the year 1906.

I highly appreciate the honor of an appointment to this position and am very grateful for the privilege of doing whatever I have done to carry out the purposes for which the juvenile probation law was enacted; but much as I am interested in this work—it grows larger and more important in my eyes from day to day—and much as I am interested in the welfare of our juvenile population, I can not possibly do the duties of a probation officer beyond the time I have named without the compensation which the statute has failed to provide.

Yours sincerely,  
M. R. SCOTT.  
Newark, O., Dec. 8, 1906.

JUVENILE COURT  
LAW IS ATTACKED  
IN CARLISLE CASE

Columbus, O., Dec. 8.—In the case in which Anna Carlisle was convicted for contributing to the delinquency of Essie Brennan, two motions have been filed, one for a new trial and one for arresting judgment. The motion for new trial states 17 different grounds, all technical in their effect, and generally applying to the proceedings had at the trial. They, however, attack the constitutionality of the law.

In the motion for arrest are four distinct grounds. One is that the matter stated in the complaint does not constitute an offense; second, that the court has no jurisdiction; third, the law is unconstitutional; fourth, the judge of the juvenile court is not legally appointed or qualified. The matter will come up for hearing shortly.

INVESTIGATION  
ONLY ADDS TO  
THE MYSTERY

Zanesville, O., Dec. 8.—Funeral services over the charred remains of Sarah Wiley, the invalid girl who was cremated in her home near Concord, were held Friday afternoon from the home of a neighbor, James Gregg. It develops that Mr. Gregg discovered the flames in the Wiley home and was on his way there while John Wiley was arousing the neighborhood Wednesday night. He verifies the story of the strange circumstances surrounding the tragic death of the girl, but, like all others in the neighborhood, can offer no tangible solution of the mystery.

It is said that a couple of strange men were seen in the neighborhood Wednesday afternoon, but they have not been seen since and cannot be connected with the case with any degree of certainty. The Guernsey county officials visited the scene of the fire and scouted the murder theory, though they cannot offer any solution for the origin of the flames. The fact that all the contents of the house were burned destroys the possibility of securing positive evidence pointing to robbery.

## PHOTOGRAPH

Of a Check For Ten Thousand Dollars  
an Exhibit.

New York, Dec. 8.—At the trial in the supreme court of George Burham, Jr., a vice president of and counsel for the Mutual Reserve Life Insurance company, on a charge of larceny, a photograph of a check for \$10,000 was produced by the prosecution in the examination of the defendant concerning a demand for \$100,000 alleged to have been made upon the Mutual Reserve for the suppression of an unfavorable report when Louis F. Payn was New York state superintendent of insurance. Burham said he recognized the photograph as a reproduction of one of two canceled checks which the late George D. Patterson, a clerk of the Firemen's Benevolent fund, had given him for safe keeping, and which, he said, he returned to Patterson later.

## Negro Died.

Lexington, Ky., Dec. 8.—William Howard, a negro, upon a wager here, lost his life by drinking two glasses of whiskey and a dozen glasses of gin in a local saloon in half an hour's time. The coroner's inquest said death was due to alcoholic apoplexy. Howard was to get the liquor for nothing providing he consumed the 11 glasses in half an hour.

Destroyed by Fire.  
Florence, Colo., Dec. 8.—The plant of the National reduction mills, a half mile from Florence, was destroyed by fire. The loss is \$150,000, with no insurance.

HE BARS DON'T  
FOR POOR MEN  
IN THIS CLUB

New Orleans, La., Dec. 8.—A free club for poor men, where the doors will be without lock or key, and the walls bare of "Don't" signs, will be established here by N. O. Nelson philanthropist and millinaire manufacturer of St. Louis. Mr. Nelson is in the city superintending the inauguration of the scheme.

Rules and regulations will not be known in the club. Everybody who enters will feel that he is in a "neighborhood" home.

"Decent living and decent thinking," said Mr. Nelson, "will be the only two requirements. The club will be open every hour of the day and night."

SLOGGERS TESTIFY  
IN SHEA TRIAL

Chicago, Dec. 8.—The cross-examination of William Kelley, self-confessed slugger and paymaster of Cornelius P. Shea's picket forces during the teamsters' strike a year ago, was concluded after Kelley had testified to having received \$500 to pay off the pickets. Kelley testified that he had served as a picket from the inception of the strike and had been paid \$9 a week as long as the strike fund lasted. Michael Murphy, who pleaded guilty with Kelley, and Al Young, former president of the International Brotherhood of Teamsters, gave testimony similar to Young and Kelley, but recited more instances of slugging. According to Murphy his crowd's principal work was to bring about blockades and to prevent wagons driven by nonunion teamsters from reaching strikebound houses. Murphy declared that the picket crew of which he was the leader did a great deal of slugging during the strike.

CONVICT-MADE GOODS.  
House Passes Bill to Curb Competition  
With Free Labor.

Washington, Dec. 8.—By a practically unanimous vote the house passed the bill limiting the regulation of interstate commerce between the several states in articles manufactured by convict labor or in any prison or reformatory. The bill was introduced by Mr. Hunt (Mo.), a practical stone mason. Under the Wilson bill, which became a law in 1890, convict-made goods may enter into active competition with goods manufactured by "free labor," and under this federal law a state could not pass a law that would prevent the shipping into the state prison-made goods of other states. The bill just passed abrogates the interstate commerce law as at present applied to convict-made goods, thereby affording to the different states and territories the right to inhibit the shipping of convict-made goods within the confines of any state or territory. Mr. Hunt asked for its passage not only in the interest of free labor, but in the interest of the manufacturers. He said it was an attempt to curb the criminal competition of the penitentiary.

## PACKING HOUSES

Will be Investigated by British Army  
Major Who Arrived on the  
Celtic.

New York, Dec. 8.—Major R. G. J. J. Berry of British army service corps, who comes to this country to investigate conditions in the Chicago packing houses, arrived here on the steamer Celtic. Chicago packers have contracts for the delivery of 10,000,000 pounds of canned beef for use in the British army, and Major Berry will supervise the filling of this contract. Among other passengers on the Celtic was Dr. William Osler, regius professor of medicine in Oxford university.

## Japs Eulogize Roosevelt.

Tokyo, Dec. 8.—All Japanese news papers are confident that Japan has the sympathy of the vast majority of the American people. The press fervidly eulogizes President Roosevelt's message, the spirit and substance of which are praised in glowing terms. The Asahi Shimbun describes the president's statement of Japan's case as clear, impartial and sublime, and says: "If the president succeeds in solving this grave constitutional problem he will merit rank with Lincoln and Garfield. The questions involved equal in importance those of the civil war."

## Vessels Missing.

Detroit, Mich., Dec. 8.—Grave fears are entertained regarding the steamer Lake Michigan and the wooden steamer Sidney C. McLaugh. The Lake Michigan, with a crew of 12, mostly from Sarnia, Ont., has not been reported since she cast away the barge Wawanesa in Thursday's storm, the barge being wrecked later near Oskoda.

IMPROVEMENT  
OF WATERWAYSFifty Millions Annually Wanted For  
Rivers and Harbors.

## DELEGATES SEE ROOSEVELT

Latter Expresses the Hope That  
Something Definite Can Be Done in  
the Way of Increased Appropriations—Deep Waterways Would Regulate Freight Charges.

Washington, Dec. 8.—Delegates to the National Rivers and Harbors convention called upon President Roosevelt at the White House. The president assured them he would consult with the leaders in congress, and expressed the hope that something definite and effective could be done in the way of increased appropriations for the improvement of the nation's waterways. Albert Bettinger of Cincinnati, convention spokesman, advanced the proposition that the natural waterways made efficient by the aid of the government would not only supply the deficiency of transportation facilities, present and prospective, but would so equitably and naturally regulate freight charges as to be most conducive to continued prosperity. He told the president that the convention suggested regular annual appropriations of not less than \$50,000,000 to replace the "hitherto deglutatory and inadequate appropriations" for the improvement of the waterways and to place their prosecution on a business basis, insuring their completion within a reasonable time. The president replied as follows:

"I have come to feel a growing sense of the importance of establishing a far-reaching, coherent plan for the general improvement of the waterways of the country. I was first led to consideration of that plan by considering another plan for the use of water not in connection with waterways, but in connection with preparing the land at the head of the river to produce the harvests that later in part should be carried on the rivers lower down—that is, in connection with the irrigation policy, in which I so strongly believe as vital to the welfare of the Rocky mountain and adjacent states. Just as I feel that the national government should concern itself with utilization of the water of rivers in their sources, where the country is dry, so I feel the national government should concern itself with the proper control and utilization of the water lower down in the river where they are fitted to be the great arteries of communication. I have had it brought strikingly to my attention but recently how much we suffer at present because of the inadequate transportation facilities of the railways for moving the great grain crops and cattle crop of this country. We need and must have further facilities for transportation, and as has been well pointed out, one of the effective methods of affecting railway rates is to provide for a proper system of water transportation."

## DEAN IS FINED

Agent of Canton Rubber Company  
Pays \$2500 in U. S. Court at  
Chicago.

Chicago, Dec. 8.—Walter M. Deane, agent in this city of the Canton Rubber company, was fined \$2,500 in the United States district court. Deane, with officers of the rubber company, recently sentenced to serve one year each in the house of correction, was indicted on a charge of conspiring to violate the federal law governing interstate traffic in articles used for immoral purposes.

NOTED BELLE DIES  
AT AGE OF 103 YEARS

Philadelphia, Dec. 8.—Born in 1803, when Thomas Jefferson was president of the United States, Miss Adeline Thomson, a belle in the social world of the nation in the early years of the last century, died at her home in this city. Death was due to old age. Miss Thomson came from one of the most prominent families in Philadelphia. She was a first cousin to Mrs. William B. Astor, grandmother of William Waldorf Astor and John Jacob Astor.

## Suspend a Judge.

Winchester, Ky., Dec. 8.—Hon. W. O. Harris of Louisville, the special judge appointed by Governor Beckham in the trial of Judge W. M. Beckner of this city on charges of unprofessional conduct, rendered a decision suspending him from the practice of law for two years. The proceedings were based on an affidavit filed in England in a case from this state.

## King Graft's Rule In San Francisco

Volcano of Civic Indignation That Has Burst  
Forth Against the Grinning Evil

How the Golden Gate Tried to Shake Off Its Grip of Graft—Carnival of Crime That Held Gay Revel Before the Earthquake—Side Lights on Mayor Schmitz, Abraham Ruef, His Chief Counsel, and Prosecutor Heney, Who Is Waging a Hot War on Them

Serene, indifferent of fate. She sitteth at the western gate. Thus half a century ago Bret Harte sang of San Francisco. For many years that guardian of the western gate was apparently quite indifferent, though hardly serene. Now she is neither serene nor indifferent. She has been awakened by one supreme stroke of fate—earthquake and fire. But the volcano of civic indignation which began to spit forth fire, smoke and lava in a feeble way before the earthquake is now in full eruption. San Francisco at last is so wide awake that she sits no longer, but is standing up and taking notice. She is on tiptoe.

"Murder will out," said Daniel Webster. So will graft; not always perhaps, but sometimes. But graft is pretty sure to "out" when it is pursued for a long term of years with the brazen boldness of a grinning gargoyle on a cornice, exposed to all men's eyes. That is the sort of graft which Francis J. Heney has gone after in San Francisco with a big stick—impudent, blinking, grinning graft. Somebody has been the head and front of this offending. Let the courts determine his identity.

Prosecutor Heney's first blow with his bludgeon is the grand jury indictment of Mayor Schmitz and Abraham Ruef, "the boss," on allegations of extortion from the owners of several "French restaurants," including the famous Poodle Dog concern. Shortly before the earthquake Mr. Heney promised that he would indict

Abe Ruef and the whole board of supervisors for felony. The board of supervisors is the legislative body of San Francisco. This body makes laws—or breaks them—for the consolidated city and county. To it falls the granting of franchises. Up to one year ago San Francisco had a board of supervisors that was satisfactory to all good citizens. The eighteen men composing it were elected, with but few exceptions, on old party tickets, though the new Union Labor party, originated by Abe Ruef, had elected Eugene E. Schmitz mayor for two terms. Schmitz had served four years. This man Ruef, a private citizen, holding no office whatever, was popularly believed to be the real governor of the city. It was the belief that he controlled Schmitz absolutely, dictating appointments, votes, messages and all executive acts. Everybody looked upon Ruef as the boss.

### The Grip of Graft.

San Francisco was not satisfied with her government. Most of the people believed that graft had the city in its grip, and this belief was fully justified by the condition of things. The city made a firm resolution to shake off the grip of graft. The time was ripe for it. When the mayoralty campaign of 1905 came around public sentiment was highly favorable to the overthrow of the Ruef machine, the defeat of Schmitz and the turning over of a new and unswayed leaf. San Francisco proposed to cut out her administrative rottenness, but not the real rottenness at the core. That had been

## MOTHER'S FRIEND

Abe Ruef's influence with the powers was pretty generally known, particularly among the "French restaurant" class. Ruef, he is remembered, is a lawyer. The fellows whose licenses were threatened saw Ruef. He accepted their money as retainer fees, being careful to give receipts therefor, which showed that it was "for legal services." Lawyer Ruef's advice was so potent that his clients got what they wanted, and so the dens continued to run. It was all very simple.

### Novelty in Profession of Bossism.

Lawyer Ruef accepted similar fees for "legal services" in behalf of those who wanted building permits, sign hanging privileges, street car franchises or what not. And he did not study law long and laboriously and was not the laborer-in-law—worthy of his hire? The fact that Abe Ruef, a private citizen, was a practicing lawyer made him a distinct novelty in the profession of bossism. There is no other big boss in American municipal history who has had the good fortune to be a lawyer. It was a very handy thing for Mr. Ruef.

So San Francisco got sick of Ruef, sick of Schmitz, sick of all the governmental outfit that was controlled by them. San Francisco set out to overthrow the gang. Both the old parties nominated a young lawyer, John S. Partridge, a clean man of ability, to run against Schmitz for mayor. There seemed to be no doubt of his election, with his whole ticket. Just then a certain element of citizenry did the wrong thing at the right moment to aid the opposition. There is a class of citizens in San Francisco, as elsewhere, to whom trades unionism is abhorrent and the members of unions utterly vicious. These people got together and organized a body, which they called the Citizens' alliance. Its avowed intention was to crush union labor.

### War of Class Against Class.

It was like shaking a crimson shirt in the face of a full after gouging the bull with a spear. Immediately the campaign became a war of class against class, made so by the silly antics of the Citizens' alliance. The thousands of high minded workmen who were sick of Schmitz and were ready to vote for Partridge with a whoop and a hurrah were alienated from the forces of reform. They went back to the Schmitz crowd as the lesser of two evils according to their view. Partridge and his ticket were badly defeated. Schmitz and his whole following were elected, including every one of the Ruef nominees for the board of supervisors. For the first time San Francisco had an administration altogether Ruefian.

But in the Ruef ticket elected last year there was one weak spot from the grafters' viewpoint. William H. Langdon was chosen district attorney. Ruef had nominated him to lend respectability to the ticket. Langdon was superintendent of the public schools. He had just been admitted to the bar and had had no experience in practice. Ruef no doubt thought that Langdon would be easy to handle. So Boss Ed Butler thought of Joseph

putrefying since the establishment of the city. That was responsible for the Ruef regime's rottenness. Let this important fact be borne in mind.

Much of the hysteric sort was written concerning San Francisco after the earthquake. If any city ever was destroyed by a "visitation of Providence" for its wickedness San Francisco was that city. It was Sodom and Gomorrah amalgamated. It was the worst of Paris transplanted in a fouler soil. San Francisco was not merely gay, not simply lighthearted; it was recklessly, putridly wicked. Vice strode the streets unchecked. Shame flaunted her scarlet banners from the casepots. The painted jzebels and the perfumed

band has sworn that he will kill any lawyer who aids me in getting a divorce."

In half an hour Heney had drawn up the complaint and filed the petition. The court granted the decree. Shortly afterward the ex-husband attacked Heney on the street. Heney shot him dead.

### A Prosecutor Who Prosecutes.

The attorney general of the United States sent Heney up to Oregon to prosecute the public land thieves. Heney convicted sixteen of them, including Congressman Williamson. He also convicted United States Senator Mitchell on an indictment charging certain misdemeanors in connection with the land graft.

Ruef is an undersized Jew and the last man one might pick out in a crowd as a leader. He is highly educated. In physical appearance Mayor Schmitz is in striking contrast to the little lawyer. Schmitz is one of the handsomest men in America. He is more than a six footer, and his frame justifies his stature. He stands erect. His wavy mass of black hair and his black mustache and beard are carefully kept. His skin has the pinkness of health and the tenderness that is due to a knowledge of the efficacy of the bath. He dresses in elegant style and wears his clothes as if he were born in them, full grown. His manner is that of a well bred gentleman. He is educated and refined. His temperament is the artistic. He is perhaps the most distinguished looking man in public life today. Let him walk down Pennsylvania avenue in Washington and a Fiji islander or an uninformed European would pick him out for the president on his merits as a specimen of manhood. In Russia he would be selected as the man who ought to be the czar because he looks the part.

Those who mistakenly hold that union labor and all its political products are coarse and vulgar have come to look upon Mayor Schmitz from afar as a low creature elevated to high position by the elements of misrule. Should you hold this view you will discover your mistake if ever you meet Schmitz personally. There are writers who, striving after dramatic effect, are fond of telling how Schmitz leaped from a fiddler's chair in a theater to the mayoralty. He was musical director for the Columbia theater in San Francisco, but he was also secretary and manager of a manufacturing concern. Schmitz made gas engines, and he made money out of them. He was an employer of labor himself. He was also and still is a member of the Musicians' union.

### A Good Fiddler.

Schmitz is a good fiddler and is proud of it. When he was in his first campaign for the mayoralty a San Francisco lawyer, Delphin M. Delmas, said in a speech that Nero fiddled while Rome was burning, and Schmitz, if elected, would be fiddling while San Francisco burned. San Francisco did burn, but Schmitz didn't fiddle. What ever faults or failures at other times may be alleged against him the world knows and has admitted that Mayor Schmitz rose to the occasion and handled it ably.

These remarks are not submitted as a brief for Schmitz in his present predicament, but merely in the interest of accuracy. Even if Schmitz should be convicted on the indictments found against him his handling of the fire situation still must stand to his credit. We still remember that Benedict Arnold fought bravely at Quebec and Saratoga.

Also we recall that Abe Ruef fought like a thoroughbred.

ROBERTUS LOVE.

### A DAY OF RECKONING.

You Cannot Fool All of the People All of the Time.

The recent condemnation as unfit for further service of a number of gas and electric light plants and the closing down of some of them at a dead loss to the taxpayers should serve as a warning to other cities, for this is the fate that is likely to overtake all such plants in the long run. For the first year or two, when no expensive repairs are needed and the plant is thoroughly up to date, it ought not to be difficult to make a good showing. For a few years longer the bad bookkeeping and inadequate reports, that are unfortunately the rule rather than the exception, may blind the citizens to the deterioration of the plant and to its increasing losses. But the day of reckoning inevitably comes when breakdown, bad service or demand for new equipment that cannot masquerade as "extensions" causes an investigation, and then it becomes evident that the plant has been a losing proposition almost from the start. No plant should be accepted as evidence of successful municipal management until it has been operated for several years and then examined by expert engineers and accountants.

### Carelessness, Not Graft.

At a local government board inquiry held at West Ham, London, to sanction the borrowing by the corporation of £62,300 for electricity extensions it was stated that the electrical undertaking up to the present had resulted in a loss of £7,206, which had been charged to the rates. The inspector pointed out that loans of some thousands of pounds had been sanctioned by the board for purchasing various machines, and he found the council again asking for money to buy machinery for which they had already received the cash.—Morning Post.

The movement for municipal ownership in this country is a hant by the demagogue for a new issue to catch votes.—Melvin O. Adams.

THREE MEN PROMINENT IN SAN FRANCISCO'S GRAFT INQUIRY.

pariah held carnival in the midst of the city unchallenged. The vilest dens of infamy in any white man's community on the face of the earth ran wide open in San Francisco, and everybody knew it. But San Francisco didn't care.

Union labor politics was not responsible for this condition. Such things had been going on for half a century. The town grew up that way. Successive administrations, however eminently respectable they might have been or were supposed to be, licensed these places, these houses of infamy which were restaurants, barrooms and bedrooms in one. They collected the license money for the city treasury and let the vile dens run.

After Schmitz became mayor somebody discovered that these places were immoral. Somebody was severely shocked, horrified. The licenses of some of the places were revoked, while others were threatened with revocation of license on moral grounds. The owners had to employ legal advice and get their cases presented to the city authorities by a lawyer. By that time

W. Folk when he caused him to be elected circuit attorney of St. Louis. Folk turned on the boodler gang and prosecuted right and left. Langdon determined to do the same, but having had no experience at the bar he required an able attorney to take the burden of the work. He found his man in Francis J. Heney.

Heney practiced law in Arizona in the days when the gun play broke the desert monotony quite frequently. Once a woman called at his office and requested him to get her a divorce.

"My husband beats me with a horse-whip," she said.

"I can get you a divorce for that," said Heney.

"But I must be fair with you, Mr. Heney," the woman said. "My hus-

# Bowser Near Death's Door

Has a Toothache, and It Is Laid to His Wife as a Matter of Course.

## DOCTOR COMES IN HASTE

When He Finds Out What the Trouble is, He Calls Patient Biggest Jackass in America.

[Copyright, 1906, by the McClure Newspaper Syndicate.]

At 3 o'clock the other afternoon Mrs. Bowser was given a start to see Mr. Bowser come walking into the house. She went down the hall to meet him and ask if anything was wrong, but he passed her without a word and entered the sitting room and threw himself down on the lounge with a groan.

"Will you tell what on earth is the matter with you?" she demanded as she followed and bent over him. "Have you lost all your money? Are you ill? Is there any bad news from mother?"

"It's—it's the toothache," he muttered after a minute.

"Oh, is that all?" she said as she heaved a sigh of relief and mentally thanked heaven. "I didn't know."

"Is that all?" he shouted as he sat up with a wild look on his face. "You

"SHUT YOUR EYES AND TRY TO GO TO SLEEP."

are probably disappointed because I was not brought home dead. I shall soon be a corpse, however. I have been in mortal agony ever since I left the house this morning. How I ever managed to get home I can't say. I tried to get the ambulance, but couldn't."

Mrs. Bowser recalled three different occasions within the year when she had suffered with toothache and when he had called her a booby for even mentioning it. He had said that no one ever had toothache except from gross carelessness and that he was glad to see her hopping around. She didn't call these things up, however. On the contrary, she called him poor fellow and expressed her sympathy and started away to make a mustard poultice for his cheek. Her time was occupied for the next ten minutes, and during this interval Mr. Bowser groaned 100 groans, being ten groans to the minute, or one every six seconds. He ejaculated "Oh, my soul!" twenty

times, being one every thirty seconds. He called to Mrs. Bowser five times, being one call for every two minutes.

### Tried a Poultice.

"Now, then," said Mrs. Bowser as she returned with the poultice and tied it fast to his cheek, "this ought to draw the pain out in a few minutes. Why didn't you come home sooner?"

"Can a man in the agonies of death and squirming around on the floor stop the performance and come home?" he demanded.

"You poor, poor man! Was it as bad as that? How I pity you! The pain will soon be gone, however. Shut your eyes and try to go to sleep."

Mr. Bowser shut his eyes for one minute.

Then he opened them.

Then he glared across the room at the family cat, which was trying to look homeless and mournful.

Then his lip trembled as he thought of being buried under a willow tree and the snow lying heaped on his grave and Mrs. Bowser being at a variety show in her widow's weeds.

"Are you better, dear?" she asked in a whisper as she smoothed his marble brow.

"Better! Can a dying man be better? Can't you see that I haven't half an hour to live?"

The cat deliberately winked at Mrs. Bowser and then turned his head away, and he will never know whether the wink was returned or not.

Then Mr. Bowser found the poultice too hot.

Then he found it too cold.

Then he sat up and groaned.

"I think I will bent some whisky and have you hold it in your mouth," suggested Mrs. Bowser. And she departed to fulfill her errand. She hurried as fast as she could, but it took her seven minutes by the clock.

During this interval Mr. Bowser kicked with his right leg ten times, then with his left leg eight times. He groaned five distinct and awful groans. He sighed six sighs that could have been heard at the front door by any one looking for umbrellas to mend.

### Returned With Whisky.

"This ought to stop the ache in a minute or two," said Mrs. Bowser as she returned with the steaming whisky and held it to his lips.

Mr. Bowser got a mouthful and lay down and closed his eyes. He kept them closed so long that she began to wonder if his soul had taken its flight, but there was no occasion for a scare. Mr. Bowser was only thinking.

He was thinking of how he had deliberately sat in a draft for half an hour the day previous, but how he would lay all his pain and suffering to Mrs. Bowser.

He would say that it was his getting up in the night at her instance to see if burglars were in the house.

He would charge her with a deliberate intent to wipe him off the face of the earth and benefit by his life insurance.

She hadn't exactly tried to poison him, but from thence on he would address her as Lucrezia Borgia.

He was thinking up other schemes to get even when some of the whisky treacherously trickled down his throat and choked him and brought a cough and a splutter. Then he sat up and choked and gasped and gurgled and got red in the face, and all that Mrs. Bowser could say to soothe him was:

"Dear, I am really afraid that you will have to have that tooth out."

"The doctor!" he shouted as he motioned to the telephone.

"But the doctor can't help you."

He rolled off the lounge on the floor and scrambled up and went to the telephone and called up central. Central replied that he must wait a minute.

"Not a second," he replied. "This is a case of life or death."

At the end of two minutes he got the doctor's office to find that the doctor was out.

"What in thunder is he out for?" he

demanded of the doctor's wife.

"He has gone to a sick lady."

### Scored the Doctor.

"He had no business to. The woman has no business to be sick. You tell him that there is a dying man here and that he wants to get around without the loss of another minute."

"But it's only the toothache," protested Mrs. Bowser, "and if you would let me try a bag of hot ashes!"

"Only the toothache!" howled Mr. Bowser as he jumped up and down. "Only! Only! Great heavens, hear the woman talk!"

"Will you let me look at the tooth?" she asked as he climbed back on the lounge. "If it is hollow I can put some cotton in."

No reply.

"If it's a loose tooth it should be drawn. You can't suffer this way, you know."

Awful silence, broken at last by a chuckle from the cat as he crawled under the piano.

Then groans from Mr. Bowser to show that the end was near.

Then more groans, tapering off into mournful sighs to show that he hated to leave this world just as the price of ice was becoming cheaper.

Mrs. Bowser was about to prepare the bag of hot ashes, whether or no, when the family doctor came driving up on the gallop. The door was no sooner opened to him than he rushed in and up to Mr. Bowser and asked what was the matter.

Mr. Bowser opened his mouth and pointed and groaned. The doctor bent down, inserted his finger and thumb and three seconds later held up a tooth and exclaimed:

"You could have pulled it out yourself! Bowser, you are the biggest jackass in America." M. QUAD.

### What Was Wanted.

With hisses and groans the audience greeted the crucial scene of the new drama. All hope then was at an end.

"It's hard to tell just what the public wants," murmured the heartbroken playwright.

"It's easy enough to tell in this case," said the manager grimly. "It wants its money back."—New York Press.

### Bound to Tell.

At a dinner party the little son of the host and hostess was allowed to come down to dessert. Having had what his mother considered a sufficiency of fruit, he was told he must not have any more, when, to the surprise of every one of the guests, he exclaimed:

"If you don't give me some more, I'll tell!"

A fresh supply was at once given him, and as soon as it was finished he repeated his threat, whereupon he was suddenly and swiftly removed from the room, but he had just time to convulse the company by exclaiming:

"My new trousers are made out of ma's old bedroom curtains!"—Philadelphia Ledger.

### Discouragement.

"Why don't you try to elevate the stage?" asked the sincere friend.

"I have tried," answered Mr. Stormington Barnes. "But when I put on educational plays there aren't enough people in the house to make it worth while, and even those who come seem to wish they had stayed at home."—Washington Star.

MOON FACE NEGOTIATED DEATH OF THE UTE.

UTES IN CAMP ON THREE BAR CREEK, WYOMING.

Spokane, Wash., Dec. 8.—Thomas W. Tolman, a local photographer, penetrated the wilds of Eastern Wyoming, overrun with rampant Utes, during the recent Indian outbreak and photographed them in the most "warlike" moments.

Mr. Tolman arrived at Gillette, Wyoming, on Sunday, October 28. Rumors at that place were not reassuring. With some trepidation Tolman and a friend entered the Indian camp and received a cordial welcome when it was discovered they were unarmed. The Indians readily submitted to being photographed and talked freely of their predicament.

Mr. Tolman found that Moonshine, a medicine man was the only belligerent in the whole tribe. This redskin was decked out in all the trappings of a bloodthirsty savage. He worked

### PRESIDENT AS A STOKER.

Showed What He Could Do With the Shovel on a Warship.

President Roosevelt made himself solid with the crew of the battleship Louisiana the other morning while on his way home from Panama by going down into the fire room of the ship and firing one of the boilers.

The story was related at Newport News, Va., by one of the ship's firemen on shore leave while the Louisiana was in port for coal, says the New York Sun.

According to the story, the president expressed to Captain Couden and other officers of the ship a desire to go down among the firemen and the stokers, so he was unceremoniously escorted down the ladder into the dark and grimy fire room, where the heat is excessive.

After shaking hands all around and watching the firemen shovel coal into the big furnaces the president thought he would like to try his hand at the game. So he was supplied with a shovel, introduced to the coal pile and invited to shovel away. The door of the furnace under No. 3 boiler of No. 3 fire room was thrown open, and the hot blast from within struck the head of the nation full in the face.

He turned to the coal pile, resolutely buried his shovel up to the handle, swung on it like a veteran and made a powerful heave toward the yawning furnace mouth, hungry for fuel.

A sudden lurch of the ship upset all calculations, however, and the shot went wide of the mark. Instead of going into the open door the coal struck hard against the furnace plate and rattled upon the floor. The president laughed heartily at the failure of his first effort and returned to the attack with renewed vigor.

The second shovelful found its mark and was devoured before the president had time to lower his shovel. He repeated the performance with the same success, and beaming through drops of perspiration he proudly received the congratulations of the regular firemen. He then shook hands all around again and climbed back to the deck.

Chief Engineer Crank has preserved the shovel with which the president worked and is going to send it to Mr. Roosevelt as a souvenir of the occasion.

overtime exhorting his fellow tribesmen to go on the war path, but his remarks were received with grunts of indifference and utter absence of enthusiasm.

"I had been there but a short time," said Mr. Tolman, discussing his adventure, "when I was told that a chief whose tent was apart from the rest, desired to see me. I was conducted to the tepee and was introduced to Chief Kinkasson. Through an interpreter he hastened to explain to me that the intentions of himself and his followers were peaceable. He asked me to prepare a letter from his dictation, which I promised to convey to the soldiers."

"Kinkasson and his people are at peace with the white man today," the letter read. "Indian's heart good. No harm white squaw. No kill sheep."

No kill cattle. Tomorrow, if soldiers come, Indian's heart bad. We want soldiers stay at home. We stay here maybe. Stay two sleeps, maybe, then go to visit our friends, the Sioux. Stay long time. No want soldiers to come."

"The letter was signed by Kinkasson, Black Whiskers and Red Cap, the three chiefs of the Utes. We delivered the message to Captain Johnson, whom we encountered at the head of the troops two miles from the Indian camp. We returned three days later and learned that a truce had been patched up whereby the Indians would spend the winter in the Black Hills, South Dakota. I succeeded in getting several more excellent pictures and left with the personal assurances of undying friendship from Chief Kinkasson."

In 1796 Mr. William Tuke, a Quaker, opened the first rational asylum for the insane in York, England. A few years earlier a Frenchman named Pinel had made a similar effort to restore the mentally deficient to the rank of human beings. Pinel's plan was that a non-restraint, a system then unheard of and, of course, to be ridiculed as a preposterous heresy. It is now being followed everywhere.

THE EXPERIENCED TOURIST FAVORS LEATHER.

For the many uses of the road, for the varied variety, back and sides setting fair weather and foul, the experienced tourist has thoroughly proven that there is nothing like leather after all. Of course, in summer time it is wont to prove a trifle warm when one is on the ground; but the current of air created by the garment in motion makes it welcome on even the warmest day. For winter wear there is a disposition to line the leather coat with some one or another of the less expensive furs, squirrel or muskrat, for example, and such is the mode followed in the garment that forms the subject of illustration. The coat is of the semi-

## AMUSEMENTS

### UNCLE TOM'S CABIN.

Stetson's "Uncle Tom's Cabin," is the mammoth double production of "Uncle Tom's Cabin," and will appear on Tuesday, December 11, at the Auditorium. The rendition of Uncle Tom by this well known and well liked company will never grow old. This management evidently believes in the maxim: "What's worth doing is worth doing well." There runs through this grand story a pathos peculiarly touching and sweet. It speaks the universal language of the heart. It reflects like a mirror the innermost phases of the human emotions. It is more than a play—it is a moral classic. It argues for two of the greatest themes that can engage the mind—human liberty and the immortality of the soul. Notwithstanding the frequent production of this play it is never produced in the sumptuous manner by other companies as it is in Stetson's. It is like meeting an old friend after a year's absence. In his theatrical offering Manager Washburn has brought together all the requisites that go to make up a really great production and one it will be a real loss to miss.

### THE BEAUTY DOCTOR.

With all the features that made it so successful upon its advent here last year, and with a new dress and a lot of special new features, "The

WILL PHILBRICK, Leading Comedian with the "Beauty Doctor."

"Beauty Doctor" will appear at the Auditorium Thursday, December 13 to again please our theatre goers. New dancing numbers that are credited with being hits will add to the general attractiveness of this second edition of "The Beauty Doctor." A topical trio, "Angel Voices," "Fare-

well, Myron Brown," "Come Down, Mr. Man in the Moon," "My Flower of the South," a beautiful Southern ballad, and many other good things constitute the menu the Beauty Doctor will serve up when the musical comedy returns.

### AUDITORIUM TONIGHT.

With the sensational melodrama, the "James Brothers of Missouri," the Rentfrow company will close the week's engagement at the Auditorium tonight. A rousing house tonight is predicted as the Pathfinders deserve it. Don't forget that \$10 will come in handy for Christmas. It will be given away tonight.

### CHIMES OF NORMANDY.

Every rehearsal makes a better showing for the comic opera "Chimes of Normandy," to be played at the Auditorium next week, Wednesday, December 12. The orchestration is here, and the costumes which were heard from this morning will no doubt be in Newark a time for this evening's rehearsal. The company in full will rehearse this evening, in the A. O. U. W. hall on the South Side. Remember the music to the "Chimes of Normandy" is of the best and the most catchy in any of the old line operas. Prof. Flora as well as the Mary Webb Memorial Circle, is well pleased with the interest that has been shown in the work. The cast and chorus are working hard to make the play a success in every particular. The advance sale of tickets is going fast. Reserved seats on sale Monday morning at the Auditorium.

### ORPHUM THEATER.

To any one familiar with the names of vaudeville performers the bill secured for next week at the Orphum will appear usually attractive. Princess Chiniquilla assisted by Ed Newell, cowboy juggler, Earle Sisters singers and dancers, the great La Delles, mysterious manipulators, Parish, ventriloquist, new illustrated songs, and 1000 feet of interesting motion pictures. Remember, the lamp and stand to be given away this evening.

### DICKENS' CHILD STUDIES.

The second number of the lecture course will be given at Plymouth Congregational church, Tuesday, December 11, by William Sterling Battis, the world's greatest interpreter of Dickens. Subject "Dickens' Child Studies."

### FIRST CHURCH DINNER AND SUPPER DECEMBER 11

Dinner and supper will be served at the First Presbyterian church next Tuesday, Dec. 11. Following is the MENU.

Dinner: Chicken pie, mashed potatoes, corn, cranberry sauce, celery, slaw, white and brown home-made bread, pie, tea and coffee.

Supper: Escalloped oysters, cold ham, creamed potatoes, cranberry sauce, pickles, white and brown home-made bread, cake, tea, coffee. Ice cream 10 cents extra.

## Y. M. C. A. NOTES

The Y. M. C. A. at San Francisco has completed a canvass for \$500,000.

Mr. Isaac Alcuza, native of Jerusalem and son of a Rabbi, will lecture at Taylor Hall Sunday afternoon. His subject will be "From the Rabbinical Seat to the Foot of the Cross, or the Story of My Conversion." Mr. Alcuza is now well known to many Newark people and he will no doubt be greeted with a large house next Sunday.

From one of the isolated farming towns in Fauquier county, Va., a young man usually rides on horseback five miles to meet the Bible class of the County Young Men's Men's Christian Association each Wednesday night. On a recent Wednesday he walked, saying "I have been drilling wheat all day (a walking drill) and my horses are tired." The "Wranglers Club" had a preliminary meeting Thursday afternoon. This is a club composed of professional and business men which plans to meet regularly to debate the great topics of the day. The first debate is announced for Monday, December 17, at 7:30. Any man desiring to join the club will speak to the secretary and get full information.

A large arch is being cut between the game rooms which will add much to the club like appearance of these rooms. The pool tables are expected to arrive any day now.

The "Booster" banquet for the unions takes place at noon next Saturday.

The San Francisco Y. M. C. A. is most grateful today because it is able to draw on Mr. John D. Rockefeller for \$250,000, having fulfilled the conditions of a pledge he made. The conditions were that the association should get \$250,000. The fund has just been completed.

Association buildings to cost over two million dollars are soon to be on the Pacific coast one of which will be at Los Angeles, costing \$500,000, another at Seattle, costing \$250,000, another at Portland costing \$350,000, another at Tacoma costing \$150,000, and in other cities which increase the total to over two million.

## FRENCH ACTRESS IN HER LATEST AND ONE OF HER GREATEST ROLES

Mme. Sarah Bernhardt, on her return to the Paris stage, produced "Sainte Therese, La Vierge d'Avila," at her own theatre, playing the title role herself. The famous actress met with much success.
